

BluWire Integrated Ltd

A Path to Solutions
We Deal with Aspects of Professional *IT* Services

We can Give Your Brand **SKYSCRAPER TECHNIQUE** to Grow Your Business, Through the Use of Technology.
Since 2015, we have been visionary and a reliable software engineering partner for world-class brands.

Hi-Tech industries play an important role in the modern economy, and often experience significantly higher pay than other industries. Digital solutions have transformed the world's business.

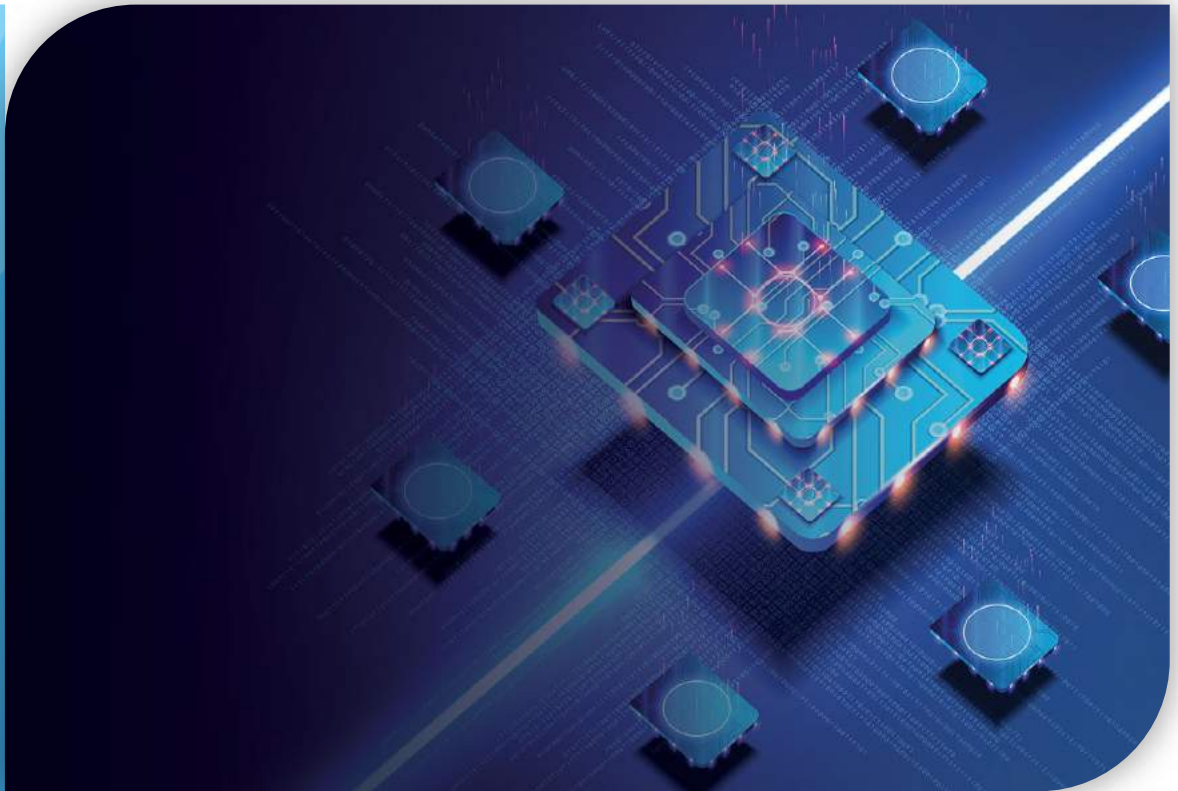

Social media tool allows users to quickly create and share content with the public. It encompasses a wide range of websites and mobile applications and have transformed the world's business.

Industrial support of 4.0 and IOT strategy initiatives, we facilitate the digital transformation of the operations layer of an organization, focusing on assets and the data they produce.

Banking advisory service - we have facilitated automation of manual processes, adoption of new digital channels and multichannel integration which optimize internal processes and enhance their business performance.

Trusted by 4500+ Happy Customers.

BluWire Integrated Ltd is a progressive, full service IT organization committed to providing effective, accurate, and quality Computer Training, IT Consultancy, and IT Services to our clients.

WWWe provide comprehensive training program to satisfy our business/client needs. Each program consists with many courses or modules. However, the programs are not watertight compartments and many of our students choose a customized program by blending courses from different programs. The various courses and course material has been designed after consulting with many industry experts.

We design and build stunning bespoke designs and we can help with a range of online marketing strategies. Every programme that we create is designed and built by our team of friendly developers which makes it easy for easy update.

We run all kinds of IT services with 5+ years of experience.

We are Professional Team You can Trust - It can be really daunting to get started on a new IT project with a company you don't know. How do you know if we're any good? How do you know if you can trust us? Since we work virtually, we can and do work with people all over the country.

We are a Team - Working with us means working as a team. We collaborate with you to find the best solutions to your problems. We won't talk over you, confuse you with technical jargon, or make promises we can't keep. We'll always be straight with you about what your website needs and what it doesn't need, and we do it all professionally and reliably. You can count on us to be there for you every step of the

Together we listen, admonish and design. Smiles on the faces of our customer and leaving our clients with an experience so unforgettable is our core value. Welcome to BluWire Integrated Ltd.

CEO - Sunny Williams Ohikhokhai

We Have Been For Years

We've heard the horror stories of people paying money to vendors and then having their developer just disappear on them. That makes us incredibly sad. It happens. How do you know it won't happen again? When you work with BluWire Designs, you are working with a IT design company that's been in business for 5 years. That's a long time in this industry.

This is also our full-time jobs. We're not freelancers working a side hustle for extra money. You can count on us to be available during business hours.

Professional IT Services Developed Strategically for your Business.

IT Consultancy - BluWire-it consultants assist clients with everything from planning and building a first product implementation through complex, multi-product IT transformation. We have expert staff to help you are able to listen, correspond, understand your needs and proffer advice that will solve the business areas of your technical problems; address people, process, and technology.

Digital Services - More leads. More sales. More revenue. That's digital marketing services from BluWire Integrated. With a custom strategy, plus data-driven insights from IBM Watson and Google AI, we'll help your business impact the metrics that matter most, from traffic to revenue.

ICT Advisory Services - BluWire has expertise and experience in ICT strategic consulting, solution architecture, software development and systems integration. BluWire was founded in 2020 as an online services provider, building some of the earliest major online portals for large organisations.

Corporate Training - In BluWire, we have extensive experience building well-organized and actionable training programs for companies. Whether you need training support for a major change effort, an employee development initiative, or just to enhance your current training programs, we know how to break down even the most complex ideas.

OfficeInCloudUnlimited - We are a full-service web design and development company offering a variety of web design services. Not sure what you need? [Subscribe for one](#) or [Schedule a free consultation](#) and we can discuss it in detail. You pick the day and time and we'll call you to discuss your project
